PROFILE

Penultimate-year University of Manchester student running three concurrent client-facing sales roles: enterprise sales at Arcube (banking and hotels), B2B sales at Sandhills Global, and founder of Redefine Me. Top intern at Sandhills, contributed to 3 enterprise contracts at Arcube, and built a live ticketing platform with 700 users. Comfortable owning pipelines end-to-end and writing the code that automates them.

EDUCATION

University of Manchester, Alliance Manchester Business School Sep 2024 – May 2027 (expected)

BSc International Business, Finance and Economics | [Predicted: First Class]

- Concentrations in Finance & Strategy, FinTech & Blockchain, and Development Economics
- Modules: FinTech Analysis, Foundations of Finance, Investment Analysis, Fundamentals of Strategy, Advanced Statistics

Dubai English Speaking College

Sep 2022 – May 2024

A-Levels: Psychology A, Business A*, History A*

- Student of the Term 2023; Editor, Business and Economics Society; MUN Chair; Captain, U19 Basketball

KEY ACHIEVEMENTS

- Winner, Idealabs 2025 (Masood Entrepreneurship Centre, University of Manchester)
- Winner, ElevenLabs Hackathon 2026
- Top-performing intern at Sandhills Global, closing more corporate accounts than any intern in company history
- Built and shipped Redefine Me from concept to live App Store and Google Play product, with 700 users signed
- Winner Accelerate Me Startup Growth Sprint 2026. Outperformed 14 other startups in Manchester on the basis of revenue, user gain and features.

PROFESSIONAL EXPERIENCE

Crest Growth | Cofounder & CEO May 2026 – Present

Manchester | Productizing AI agents to automate growth and marketing for SMBs | Accelerate Me Cohort 12

- Held customer discovery with 15 Small Business owners.
- Signed first 2 design partners on.
- Built frontend demos and actively working on product

Redefine Me | Founder & CEO

Jan 2025 – May 2026 (Pivoted)

Manchester | Student event ticketing platform across UoM, MMU, and Salford | Accelerate Me Cohort 12

- Pivoted the platform from event discovery into society ticketing after 80 B2B discovery interviews with societies and direct conversations with multiple Student Unions, charging societies 3% vs the SU's 6% standard
- Signed 10 society partnerships and the first paid event sponsorships during a 10-week Accelerate Me sprint, reaching 700 users signed across iOS, Android, and web
- Built and shipped iOS and Android apps personally: React Native frontend, Firebase / Firestore backend, and Instagram scraping pipeline (full code on GitHub)
- Hired and lead a four-person team across product, partnerships, and engineering
- Targeting 5,000 users by Freshers' Week 2026 via SU partnerships, sponsored events, and ambassadors

Arcube | Enterprise Sales & Software Engineer (Sales Automation)

Dec 2024 – Present

Manchester / Dubai | Travel-tech platform powering ancillary revenue for airlines, hotels, and banks

- Promoted into a paid enterprise sales role after two consecutive BD internship cycles; now own the banking and hotel verticals end-to-end (prospecting, outbound, qualification, proposal, negotiation, close)
- Directly contributed to 3 enterprise contracts signed, converting from cold outbound and warm reactivation
- Build internal sales automation tooling that streamlines outbound prospecting, lead enrichment, and CRM workflows for the wider commercial team

- Represented Arcube at an aviation industry conference in Dubai, sourcing leads and mapping the wider ancillary ecosystem

Sandhills Global | Sales Intern (B2B)

Aug 2025 – Present

Manchester | Global B2B media and marketplace company (construction, agriculture, aviation, transport)

- Top-performing intern in company history by corporate accounts closed; consistently exceeded monthly revenue and outreach targets
- Own a full pipeline across four verticals: prospecting, qualification, needs assessment, negotiation, close, and account retention
- Retained part-time after the formal internship on the back of consistent quota performance

Accelerate Me | Programme Associate

Aug 2025 – Present

Manchester | UK's largest student-led startup accelerator

- Run programme operations including founder office hours, workshops, and pitch practice for the active cohort
- Hosted the Cofounder Matchmaking event and led logistics and partner alignment for the Housr x AME hackathon
- Contribute to startup screening, due diligence, and cohort selection alongside the senior programme team

Master Homes Properties | Lead Generation Consultant

Apr – Jun 2024

Dubai | Real estate developer focused on high-value investment properties

- Rebuilt Google Ads and paid social campaigns, lifting lead generation 70% at lower cost per qualified lead
- Audited prior campaign data through Google Analytics to surface conversion drop-offs and reallocate budget

PROJECTS

Lifemaxxing | Open-source productivity tool

2026

Voice and text controlled assistant integrating with daily tools (calendar, tasks, notes, email)

- Designed for end-to-end voice control of daily workflows: capture, scheduling, task creation, cross-tool routing, and natural language commands
- Released open-source on GitHub for personal and community use, with a focus on extensibility through pluggable integrations

Vendetta | Open-source Grievance dispute tool

2026

- AI agent that pursues consumer disputes (flight delays, parking fines, deposit disputes) over multi-week campaigns
- Researches the correct complaints address, statute, and regulator per case via Bright Data MCP, then drafts legally precise dispute letters through Vercel AI Gateway
- Uses Mubiti memory to compound lessons across all user campaigns, so each new case starts further along than the last hundred
